

Giving Through a Trust

Gifts made through a trust can offer meaningful tax advantages now and/or through your estate while ensuring your philanthropic wishes are fulfilled exactly as you intend. A trust allows you to support the KGH Foundation with flexibility, control, and lasting impact.

Benefits of a Trust

Many donors choose to give through a trust because it allows them to support the KGH Foundation in a way that fits their personal plans. Trusts offer flexibility in timing and use, provide lasting impact for programs they care about, and give donors peace of mind knowing their gift is managed according to their wishes.

The chart below lists common trust vehicles Canadian donors use for charitable giving. This summary is for informational purposes only, and not intended as legal or tax advice. Donors should consult qualified professional advisors.
